duopage!*

***Duplicates books as originally
printed and bound!***

Twice the bulk—twice the shelf space is necessary with folded pages of other methods—makes volumes bulky and unwieldy.

duopage* gives you page-for-page exact reproduction!

Offered for the first time—a long-needed service for duplicating material printed on both sides of a page—without the disadvantages of ordinary one-sided electrostatic reproduction methods.

Page-for-page exact reproduction by DUOPAGE* means that page numbers are no longer partly hidden in bindings. If page numbers appeared in the outer margins of the original book—that's where they are on DUOPAGE* reproductions.

The traditional order of pagination is maintained, too, with the DUOPAGE* method—page one on the right-hand leaf, page two on the reverse of page one, etc.

DUOPAGE* reproductions are made on quality rag paper, and volumes are supplied bound or unbound. Write Micro Photo Inc. to find out how to replace volumes in your library with DUOPAGE*

"Let me tell
you how
COMPO stacks
doubled our
capacity"

"We simply *had* to find a way to organize and store all of our books . . . and do it *without* adding extra space. These Hamilton COMPO bookstacks actually gave us *almost twice as much book storage capacity*—in the same floor space! Our books are more accessible, easier to service—*everyone* seems happy with our new COMPO installation. Why don't you look into them for your library?"

Books stack like this on a COMPO extending shelf . . . slide out on silent ball bearings. *Twice* as many books are accessible.

COMPO stacks and a
full line of quality steel bookstacks
and accessories are built by
